

The iAire Ionization unit easily installs in existing ductwork or anywhere air can flow freely. When air flows over the unit, negative ions are generated that attract harmful positive ions, forcing them to clump together and fall out of the air. This is the same process mother nature uses to make the air smell so good after a rainstorm or around a waterfall.

**How the iAire Ionizer works**

## Ionization cleans the air in:

	<b>Homes</b>
	<b>Hospitals</b>
	<b>Schools</b>
	<b>Office Buildings</b>
	<b>Churches</b>
	<b>Restaurants</b>

**And So Much More**

**Benefits of Negative Ion Generators** – Many clinical studies have been done showing the positive affects that negative ionization produces. The following are some of the many benefits that are associated with the introduction of negative ions to an indoor environment:

- Reduction of pollen levels
- Reduction of animal dander
- Elimination of mold spores
- Reduction of dust and dust mite levels
- Elimination of smoke
- Reduction of hay fever and asthma symptoms
- Mood improvement
- Improvement in depression
- Reduced seasonal affective disorder symptoms
- Improvement in chronic fatigue symptoms
- Reduction in household odors

Negative Ion Generators can purify indoor air by causing contaminants such as dust, pollen, animal dander, mold spores and bacteria to be neutralized electrically. Negative ionization causes these particles to be attracted to each other and ball up; falling to the floor or other surfaces to be cleaned up by the normal cleaning process. Ionized air does not have to pass through a filter to perform this action.

The Negative Ion Generator only needs to be installed in normal ductwork in a home or building to continually treat the inside air. The introduction of negative ions in this fashion will eliminate a lot of the floating contaminants in the air like the dust you see in a ray of sunshine. The ability to improve a person's mood or reduce seasonal disorders by the introduction of negative ions in the air is certainly a positive side benefit.

**Create a cleaner and healthier home or business environment using**

# **IONIZATION**

by iAire LLC.

**Treats Harmful Particles in the Air**  
\* Odors, Allergens, Bacteria, Mold

**Environmentally safe**  
\* No chemicals used

**Quiet operation**  
\* No moving parts

**Virtually Maintenance Free**  
\* No filters to clean
